

Hello Swanton citizens. This is the first in a new series of articles written by me to inform Swanton residents of village business and events that are, hopefully, interesting and important for everyone in our community. This will be an article featured in the same position in the Swanton Enterprise bi-weekly. I will use this as my primary tool for my communication with the voters, as I often stated when speaking with the public during my door-to-door campaign this fall. I plan to feature a variety of subjects about the village operations and government, and I will be using the village's department heads and council members as contributors to these articles. I truly hope you will enjoy and appreciate the information supplied to you and that this communication will inspire you, your family, friends, and neighbors to become more involved in the future advancement of Swanton.

I have spent the past two weeks meeting our village employees, establishing an office at village hall, calling our area state and federal representatives, and meeting citizens who come into the village offices. I encourage those of you who pay your water bill in person to introduce yourself to me as my office is located directly across from the receptionist window directly inside the village hall front entrance. I plan to be in my office most days from 8:00 – 10:00 am and additional hours as my private self-employment will allow. I look forward to meeting as many of you as possible and welcome your input and comments.

If you find these articles valuable, please share that sentiment with others and let me know because I have subscription forms available in my office for the Swanton Enterprise and the Fulton County Expositor.

I thank those who voted me into this honorable office and want everyone to know that I will truly strive to do my best to promote and improve Swanton every day. It requires everyone's participation, and I am confident that we can accomplish great achievements together. Thank you for your support.
