Church Street Road Construction Update

SWANTON, OH- Church Street Road construction update as of Wednesday afternoon, August 15.

A contractor mobilized on August 13 to perform work related to a water line replacement at Crestwood and Church Street. This is the result of the water line break on August 6. The contractor installed a valve on August 14 which caused the Village of Swanton to shut off water distribution to this area for a short time. The valve is working properly but there is a boil advisory until at least Thursday August 16 at 9:30 a.m. per standard EPA requirements.

The contractor is scheduled to replace the water line on Thursday August 16; this is weather contingent and barring any unforeseen issues. After the water line is completely installed there will be vehicular access to the west of Church Street. This access will be until Tuesday evening August 21 as paving of the road is tentatively scheduled for Wednesday August 22; this paving is also weather contingent and any unforeseen issues.

The Village of Swanton will release future updates to notify the community on project status. Again, the Village of Swanton appreciates your patience and understanding as we work to make the Village of Swanton a great place to live, work and play.
