FOR IMMEDIATE RELEASE

Date: September 4, 2018

### Project 7 Sewer Separation Update

SWANTON, OH- Update on Project 7 Sewer Separation.

Project 7 Sewer Separation is still running on time. The 24” storm sewer off of East Garfield as well as the mainline storm sewer on East Garfield are both installed. The contractor is currently installing the mainline storm sewer on Harrison and should be complete with this by week’s end. This is weather contingent. When the contractor nears the intersection of Harrison and Chestnut the intersection will have to be temporary closed so the line can be tied into the catch basins.

The Village of Swanton will release future updates to notify the community on project status. Again, the Village of Swanton appreciates your patience and understanding as we work to make the Village of Swanton a great place to live, work and play.
